Dear Ufuk Bey:

Per our conversation today, I have enclosed the necessary forms for Bogazici University to order Sprint's SprintLink (INTERNET access) service. I have partially completed the forms and have "checked" all other remaining areas that I would like to ask you to complete.

As I mentioned to you earlier, Sprint would like to take the lead in coordinating the entire end-to-end International Leased Circuit with Turk Telekom and COMSAT. This will allow Sprint to be more active in provisioning the international circuit and providing the INTERNET access service to Bogazici University on a more timely manner.

In order to clarify the U.S. and Turkish -end International Digital Satellite charges for a 64 KBPS International circuit with U.S. INTERNET access, I have itemized the invoice charges as follows:

- 64 KBPS (monthly U.S. half circuit for a 1 year term): USD \$3,000.00
- SprintLink Service (monthly Internet access port charge): USD \$1,000.00
- Installation Charge (one-time): USD \$750.00 - \$1,000.00
- 64 KBPS (monthly Turkish half circuit and local loop for a 1 year term): approx USD \$8,000.00 (*)
- Installation Charge: (one-time): approx USD \$1,000.00 (*)

(*) Turkish-end charges include:

- Category III, international charge: SDR 4,888.00
- local charge: SDR 244.00
- Installation charge: SDR 575.00

Adjustment of Turkish-end charges will be made as necessary, after receipt of the exact charges extended to Bogazici University by Turk Telekom/COMSAT. Sprint will not add any type of mark-up to these charges.

It takes about 60 to 90 days to provision the SprintLink service after receipt of an order, based upon available space segment and port capacity.

In reference to payment terms, Bogazici University only needs to complete the billing information on the first page. This information will be used for preparation of Sprint's invoice. We can discuss specific details of invoicing at a later time.

I hope this additional information assists in preparing the order forms. If you have any other questions, please do not hesitate to contact me directly.

Best Regards,
